

# LEARNING WITH THE WORLD

---

## SINCE 1988

**140**  
COUNTRIES

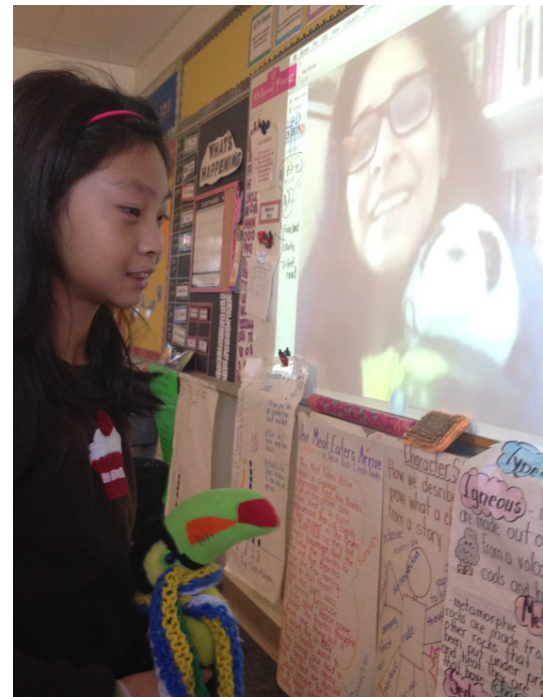

**30**  
LANGUAGES

**50,000**  
EDUCATORS

**2 MILLION**  
YOUTH

iEARN-USA is a member of iEARN (International Education and Resource Network), the world's largest, most experienced online K-12 network that enables young people worldwide to use the Internet and digital media to collaborate on educational projects.

The mission of iEARN-USA is to enable young people worldwide, working in collaboration and dialogue, to make a meaningful contribution to the health and welfare of the planet and its people.

## Global Project-Based Learning

iEARN enables students and educators worldwide to design and collaborate on over 100 global projects as part of their regular classroom and after-school programs. iEARN equips educators with the skills to integrate online collaboration and global projects in classrooms and through face-to-face workshops and online professional development.

## Online Exchanges through the Collaboration Centre

iEARN projects connect classes across diverse subject areas including math, social studies, language arts, sciences, technology, music and more. Teachers connect their students through iEARN's secure online platform to meet their peers, share ideas and work together on projects through asynchronous forum discussions and media exchanges.

## Make a Difference Locally and Globally

In addition to meeting educational goals and standards for 21st Century Learning, all iEARN projects answer the question, "How will this project improve the quality of life on the planet?" This vision and purpose enables participants to become global citizens who make a difference.

Connecting globally is an opportunity for students to interact on a personal level with another student who they may perceive as different from them, and with that exposure, they will begin to take ideas further to promote peace, to promote understanding.

**Jessie Gorant, iEARN-USA Middle School Teacher**

It was the first step for me to start my journey to become an international educator and connect the world through science, education and stories, and for that, I am always grateful. Thank you iEARN.

**Jehad Halawanit, iEARN Palestine Alumna**
