future friendly
schools

Future Friendly Schools

Future Friendly Schools are a network of schools across the planet defined by their demonstrated commitment to Global Citizenship, Student Voice, and Environmental Stewardship. Member schools work to leverage the immersive use of technology and project-based learning to drive student engagement to new heights!

WWW.FUTUREFRIENDLYSCHOOLS.ORG

Our Focus Areas

At TIGed, we believe that Future Friendly Schools prepare students for the world by utilizing technology to engage them as learners and leaders in three key areas:

GLOBAL CITIZENSHIP

An increasingly connected future requires students to understand other people and places. Cultivating global citizenship means helping students to understand their rights and responsibilities in the face of international challenges that know no borders.

ENVIRONMENTAL STEWARDSHIP

From climate change to deforestation, the future of the planet rests on students developing a sense of respect and responsibility for the world they will inherit.

STUDENT VOICE

To cultivate leaders of tomorrow, students must have a voice in their learning today. Valuing and incorporating student voice in classrooms and schools ensures that education is more engaging and relevant to 21st century learners.
